CONVENTIONAL HOME PERMIT APPLICATION PACKET / RESIDENTIAL CHANGE OF USE PERMIT APPLICATION PACKET

Date Received: _____

Received by: _____

To Apply for a Residential Change of Use Permit

STEP 1: Pick up the Development Package from the **Department of Community Development** (Room 503, 423 College Street, Carrollton, Georgia, or print a copy online at www.carrollcountyga.com .

- STEP 2:**
- A. Ask staff to complete the **Parcel Information Sheet** or go to the Map Room (Room 414) to have it filled out.
 - B. Complete the **Conventional Home Application Packet/Residential Change of Use Application Packet**.

Information check list (before the County procedure can begin, every form must be filled out correctly and include)

- Property address
- Property owner's names, address, phone number and work number
- Professional Engineer's name, address, and phone number (**Residential Change of Use Only**)
- Contractor's name, address and phone number (Electrical, Plumbing and HVAC)
- Contractor's State License and Occupational Tax Certificate/Business License
- One complete set of house plans (**Conventional Home Only**)

- C. Please see the instructions explaining how the sketch on this sheet is to be completed.
- D. Complete the **Plan Review Sheet** and the **Erosion Control Affidavit** for Single-Family Residential Construction.
- E. Complete the **Carroll County Environmental Health Septic Tank application**. This is not included in the online materials and may be obtained by visiting the Environmental Health Department at 423 College Street, Room 508.
- F. Fill out and sign the Affidavit with notarized signature. Administrative staff will notarize the documents for you at no additional charge.

- STEP 3:**
- A. Return this completed **Conventional Home Application Packet/ Residential Change of Use Package** to the Department of Community Development (Administration Building, Room 503).

The completed application will contain:

- Parcel Information Sheet
- Plan Review Sheet.
- Erosion Control Affidavit

- B. Submit the completed Septic Tank application to the **Environmental Health Department** located in Room 508. Fees for the septic tank inspection are due and payable at the time the application is submitted.

Before a Certificate of Occupancy will be issued, a Professional Engineer must provide a report with supporting documents stating that the structure meets the following codes: (Residential Change of Use Only)

IRC 2018 w/Georgia Amendments, specifically R301.1.1 (Alternative Provisions)
IMC 2018 w/Georgia Amendments 2015 IECC w/Georgia Amendments NEC 2020 w/Georgia Amendments
2018 IPC w/Georgia Amendments

After the forms have been reviewed by Community Development and the Septic Tank application approval has been received from Environmental Health, you **will be telephoned** and notified that the review process has been completed, and all of your permits have been issued. All permitting fees will be payable when you pick up your permits. **A Certificate of Occupancy (CO) will only be issued after the final inspection has been completed for Conventional Home, or the receipt of Professional Engineer Report for Residential Change of Use. Please refrain from moving into your home until this time.**

Please note there is a 25 ft setback from cemeteries for any land disturbance activities, per Chapter 27.4 of the Code of Ordinances.

Georgia Soil and Water Conservation Commission certification #: _____

My signature hereto signifies that I am the person responsible for compliance with the Soil Erosion and Sedimentation Control Ordinance. I hereby acknowledge that Best Management Practices (BMP's), per *Manual for Erosion and Sediment Control in Georgia*, must be used to control soil erosion on my job site which includes (but, not limited to) at a minimum the following:

1. **Property installation and regular maintenance** of silt barriers (i.e. silt fences, hay bales, etc.) in those areas where water exists on the job site;
2. **Proper installation and regular maintenance** of a gravel construction entrance with geotextile under-liner to keep soil and mud from being tracked from vehicles onto the roadways;
3. Removal of mud from the roadway or adjacent property immediately following any such occurrence;
4. Maintenance and removal of sediment from detention ponds, sediment basins, sediment traps, etc.
5. **Conduct no land disturbing activities within 25 feet** of the banks of streams, lakes, wetland, etc. (i.e. "state waters") or within 50 feet of any trout stream. For projects within the water supply watershed, check with the engineer for stream buffers and setbacks;
6. Cut-fill operations must be kept to a minimum;
7. Land disturbing activities must be limited to and contained within the site of the approved plans;
8. Disturbed soil shall be stabilized as quickly as practicable (**within 14 days**);
9. Temporary vegetation or mulching shall be employed to protect exposed critical areas during development (Blankets or Matting are required on all slopes of 3 feet horizontal to 1 foot vertical (3:1) or steeper);
10. Cuts and fills may not endanger adjoining property;
11. Fills may not encroach upon natural watercourses or constructed channels in a manner so as to adversely affect other property owners;
12. Mud or silt (sediment) may not enter a stream, river, lake or other state waters.

NOTE:

1. Best Management Practices (BMP's): A collection of structural measures and vegetative practices which, when properly designed, installed, and maintained, will provide effective erosion and sedimentation control for all rainfall events up to and including a 25 year, 24-hour rainfall event.

2. State Waters: Any and all rivers, streams, creeks, branches, lakes, reservoirs, ponds, drainage systems, springs, wells, and other bodies of surface or subsurface water, natural or artificial, lying within or forming a part of the boundaries of the State which are not entirely confined and retained completely upon the property of a single individual, partnership, or corporation.

Any person violating any provisions of the Erosion and Sedimentation Ordinance, permitting conditions, or stop work order shall be liable for monetary penalty not to exceed **\$2,500 with a minimum of \$1,000 per day for each violation**, by a sentence of imprisonment not exceeding 60 days in jail or both fine and jail or work alternative. **Each day the violation or failure or refusal to comply shall constitute a separate violation.** Property owners, developers, and contractors should be advised that while the Erosion and Sedimentation Act and local Ordinance provides for fines of up to \$2,500 per day per violation, the GA Water Quality Control Act provides for fines up to \$50,000 per day per violation.

Please note that the ORIGINAL LAND DISTURBING ACTIVITY PERMIT holder is responsible for all land disturbing activity on the property – even if the lots are sold. Some liability may be alleviated if the original LDA Permit holder writes into his agreement of sale specific wording which ties all future development to the approved LDA Plan and Permit, including references to State Law and Carroll County Ordinances.

NOTE:

1. All persons involved in land disturbing activities have been trained and state certified per O.C.G.A. 12-7-19.
2. The finished floor elevation of the lowest habitable floor shall be at least (2) feet above (vertical elevation), or forty (40) feet from the (horizontal measurement) the 100-year floodplain or headwaters of any drainage easement or waterway (and not located in the dam-break area).
3. Driveway drain pipes shall be a minimum of 18 inches in diameter, and shall be bituminous coated metal pipe, reinforced concrete pipe, or material approved, in advance, by the Carroll County Road Department – PHONE: (770) 830-5901 (Driveways on State Highways call: Georgia DOT—(770) 646-5522).
4. No burial of wood waste, trees, stumps, or construction debris is allowed except in compliance with the procedure and rules of the Georgia Department of Natural Resources Environmental Protection Division, and inspections by the Development Department will be stopped at the request of the State if violations are found by them.
5. **511-3-1.03 General Requirements for On-Site Sewage Management Systems. Environmental Health (770) 836-6781.**

No person may begin the physical development of a lot or structure where an on-site sewage management system will be utilized, nor install an on-site sewage management system or component thereof, without having first obtained from the County Health Department a construction permit for the installation of an on-site sewage management system.

I hereby further acknowledge that Carroll County Department of Community Development inspection staff may refuse to make development inspections, may issue stop work orders, and may issue summons to Magistrate Court for failure to comply with erosion control requirements.

I further grant the right-of-entry onto this property, as described above, to the designated personnel of Carroll County for the purpose of inspecting and monitoring for compliance with the aforesaid Ordinance.
